A.D. 1877, 14*th* FEBRUARY. N° 603.

Aerial Toy for Advertising.

(*This Invention received Provisional Protection only.*)

PROVISIONAL SPECIFICATION left by Jean Sébastien Anacharsis Ménier at the Office of the Commissioners of Patents of the 14th February 1877.

JEAN SÉBASTIEN ANACHARSIS MÉNIER, Civil Engineer, of Tavistock House, Tavistock Square, in the County of Middlesex. "A SELF-STEERING AERIAL TOY AND ADVERTISING MEDIUM."

My Invention consists of india-rubber balloons (size unlimited) inflated with gas, supplied with an apparatus consisting of two wings and one tail; also of an apparatus consisting of one bird's head, two wings, and one moveable tail, which together or separately are affixed to the body of the balloon, and by means of which any india-rubber balloon becomes a self-steering aërial toy; also of the said baloons (furnished or not furnished with or any other apparatus, figures, or drawings) being used as mediums for advertisements.

LONDON: Printed by GEORGE EDWARD EYRE and WILLIAM SPOTTISWOODE, Printers to the Queen's most Excellent Majesty. 1877.
